

EDUCATION

Keshav Mahavidyalaya, University of Delhi	New Delhi, India
B.Sc. Physical Science with Computer Science; GPA: 7.54	Nov 2022 – Aug 2026
Himalaya Public Sr. Sec. School	New Delhi, India
Senior Secondary – Science (Non-Medical); Percentage: 75.2%	Jul 2020 – Jun 2022

SKILLS SUMMARY

- **Languages:** Python [Advanced], Java [Intermediate], SQL [Intermediate], HTML [Advanced], CSS [Intermediate], JavaScript [Intermediate]
- **Frameworks:** Pandas [Intermediate], NumPy [Intermediate], Scikit-Learn [Intermediate], Matplotlib [Intermediate], React.js [Intermediate], Node.js [Intermediate], Express.js [Intermediate]
- **Tools:** Excel [Intermediate], Power BI [Intermediate], PowerPoint [Intermediate], Git Version Control [Intermediate], Postman [Intermediate], MongoDB [Intermediate]
- **Platforms:** PyCharm [Advanced], Jupyter Notebook [Advanced], Visual Studio Code [Advanced], Google Colab [Advanced]
- **Soft Skills:** Problem-Solving, Team Collaboration, Analytical Thinking, Excellent Communication,

PROJECTS / EXPERIENCE

Customer Intelligence Platform -GitHub	Python, SQL, Power BI — Data Analytics Project
• Built an end-to-end customer analytics platform using Python, SQL, and Power BI to transform transactional retail data into actionable business insights on sales performance, customer behavior, and retention. • Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis on over 18,000 customer orders, creating business-ready datasets for advanced analytics and reporting. • Developed customer intelligence models including RFM segmentation, Customer Lifetime Value (CLV) analysis, customer tiering, and retention analysis to identify high-value customers and revenue growth opportunities. • Designed a 4-page interactive Power BI dashboard featuring executive summaries, sales analytics, customer intelligence, and retention analytics, enabling stakeholders to track key KPIs across 4,338 customers and £8.89M in revenue.	
StudyNotion – Learning Management System (LMS) -LINK	MERN Stack Project — 10 Weeks
• Developed a full-stack Learning Management System (LMS) enabling students to discover, purchase, and access courses while providing instructors with dedicated course management capabilities. • Implemented secure authentication and role-based authorization using JWT, supporting separate workflows for students and instructors. • Built instructor dashboards for creating, updating, and organizing courses, sections, and lecture content, streamlining content delivery and management. • Integrated Razorpay payment gateway and developed RESTful APIs using Node.js, Express.js, and MongoDB to support scalable course enrollment and learning workflows.	
Astrology Gem Recommendation & E-Commerce Platform	Freelance Client Project — Ongoing
• Developed a MERN-based e-commerce platform enabling users to browse gemstones, manage orders, and receive personalized gemstone recommendations. • Designed a rule-based recommendation engine that analyzes user-provided astrological details and requirements to suggest suitable gemstones. • Built secure backend APIs, product catalog management, gemstone variant selection, and Razorpay payment integration to support end-to-end purchasing workflows.	

ADDITIONAL COURSES AND QUALIFICATIONS

Master Data Structures and Algorithms using Java	Aug 2023 – Feb 2024
• Concepts of Data Structures and Algorithms using Java • Certificate of Excellence	
Full Stack Web Development using MERN	Aug 2024 – Nov 2024
• Completion of Full Stack Web Development using MERN Stack
