

EDUCATION

Keshav Mahavidyalaya, University of Delhi B.Sc. Physical Science with Computer Science; GPA: 7.54	New Delhi, India Nov 2022 – Aug 2026
Himalaya Public Sr. Sec. School Senior Secondary – Science (Non-Medical); Percentage: 75.2%	New Delhi, India Jul 2020 – Jun 2022

SKILLS SUMMARY

- **Languages:** Python [Advanced], Java [Intermediate], SQL [Intermediate], HTML [Advanced], CSS [Intermediate], JavaScript [Intermediate]
- **Frameworks:** Pandas [Intermediate], NumPy [Intermediate], Scikit-Learn [Intermediate], Matplotlib [Intermediate], React.js [Intermediate], Node.js [Intermediate], Express.js [Intermediate]
- **Tools:** Excel [Intermediate], Power BI [Intermediate], PowerPoint [Intermediate], Git Version Control [Intermediate], Postman [Intermediate], MongoDB [Intermediate]
- **Platforms:** PyCharm [Advanced], Jupyter Notebook [Advanced], Visual Studio Code [Advanced], Google Colab [Advanced]
- **Soft Skills:** Problem-Solving, Team Collaboration, Analytical Thinking, Excellent Communication,

PROJECTS / EXPERIENCE

StudyNotion – Learning Management System (LMS) -LINK	MERN Stack Project — 10 Weeks
• Developed a full-stack Learning Management System (LMS) enabling students to discover, purchase, and access courses while providing instructors with dedicated course management capabilities. • Implemented secure authentication and role-based authorization using JWT, supporting separate workflows for students and instructors. • Built instructor dashboards for creating, updating, and organizing courses, sections, and lecture content, streamlining content delivery and management. • Integrated Razorpay payment gateway and developed RESTful APIs using Node.js, Express.js, and MongoDB to support scalable course enrollment and learning workflows.	
Astrology Gem Recommendation & E-Commerce Platform	Freelance Client Project — Ongoing
• Developed a MERN-based e-commerce platform allowing users to register, browse gemstones, place orders, and track personalized recommendations. • Designed a rule-based recommendation engine that analyzes user-provided problems and astrological details to suggest suitable gemstones. • Implemented a consultation workflow connecting customers with astrologers for personalized guidance before making purchasing decisions. • Built product catalog management, gemstone variant selection, detailed product pages, and secure backend APIs to support a seamless customer experience.	
ChatBot API Backend [GitHub]	Node.js, Express.js, MongoDB — 1 Week
• Developed a scalable RESTful backend API for chatbot applications, implementing JWT-based authentication, role-based access control, and secure conversation management. • Built CRUD operations for messages and conversations, along with advanced features such as pagination, filtering, full-text search, and rate limiting for efficient data handling. • Integrated Socket.IO for real-time communication and documented/tested API endpoints using Postman to ensure seamless frontend integration and maintainability.	

ADDITIONAL COURSES AND QUALIFICATIONS

Master Data Structures and Algorithms using Java	Aug 2023 – Feb 2024
• Concepts of Data Structures and Algorithms using Java • Certificate of Excellence	
Full Stack Web Development using MERN	Aug 2024 – Nov 2024
• Completion of Full Stack Web Development using MERN Stack
